

Robert V. Fullerton Art Museum

CALIFORNIA STATE UNIVERSITY, SAN BERNARDINO

To Whom It May Concern:

This letter is to recommend Mr. Victor Suarez for any graphic design or related position.

Mr. Suarez had done graphic design work for the Robert V. Fullerton Museum for three years, first as a gallery management student and then, after graduating from California State University, San Bernardino, as a freelance designer. During that time, he has demonstrated numerous valuable professional abilities, including conceptual problem solving, composition, and creative typography skills in his designs of museum exhibition announcement cards, didactic panels, labels and advertisements.

Determined, organized and effective, Mr. Suarez had always solved the museum's design problems in a timely manner and with commendable results.

Intelligent, knowledgeable and adaptive, he had proven to be a good colleague and truly valuable museum team partner. He contributed to the successful museum projects including many exhibitions. The museum staff and I highly appreciated his keen interest, enthusiasm in learning the museum side of the graphic design business, and all the work he turned in.

Mr. Suarez is certainly qualified for any graphic design position. For more information and references, please call me at (909) 537-5493 or e-mail me at ekirsch@csusb.edu.

Sincerely,

Eva Kirsch
Director
